XVI BRICS Summit Kazan Declaration

***STRENGTHENING MULTILATERALISM FOR JUST GLOBAL
DEVELOPMENT AND SECURITY***

Kazan, Russian Federation

23 October 2024

The Kazan Declaration (source: kremlin.ru)

BRICS just wrapped up its 16th summit in Kazan. Probably you heard about this momentous event from meticulously researched independent media articles discussing how BRICS just delivered a DOUBLE DEATHBLOW to the globalists.

This is very good news. Let us celebrate together by reading the BRICS' Kazan Declaration, published on October 23. ([English](#) or [Russian](#)), compliments of the

Kremlin's official website.)

Please, I beg you—read this Declaration and share it with all your friends. The Kazan Declaration is not just a massive victory for BRICS, it is a victory for all decent freedom-loving people on Earth.

Here are a few highlights from this historic document:

BRICS supports “global governance” and “the central role of the United Nations in the international system”

- “[W]e reaffirm our commitment to multilateralism and upholding the international law, including the Purposes and Principles enshrined in the Charter of the United Nations (UN) as its indispensable cornerstone, and the central role of the UN in the international system, in which sovereign states cooperate to maintain international peace and security, advance sustainable development, ensure the promotion and protection of democracy, human rights and fundamental freedoms for all as well as cooperation based on solidarity, mutual respect, justice and equality. We further emphasize the urgent need to achieve equitable and inclusive geographical representation in the staff composition of the Secretariat of the United Nations and other international organizations in a timely manner.”
- “We reiterate our commitment to improving global governance by promoting a more agile, effective, efficient, responsive, representative, legitimate, democratic and accountable international and multilateral system.”

BRICS supports the leading role of the IMF in global finance

- “We reaffirm our commitment to maintaining a strong and effective Global Financial Safety Net with a quota-based and adequately resourced IMF at its center.”

BRICS supports the 2030 Agenda for Sustainable Development

- “We stress the universal and inclusive nature of the 2030 Agenda for Sustainable Development and its Sustainable Development Goals, and that implementation

should take into account different national circumstances, capacities and levels of development, whilst respecting national policies and priorities and in conformity with national legislation.”

BRICS supports public-private partnerships to help nations achieve their Sustainable Development Goals

- “We recognise that the use of blended finance is an effective way to mobilize private capital to finance infrastructure projects. We note the important role of multilateral development banks and development finance institutions, in particular national development banks, in institutionally scaling up the use of blended finance and other instruments, and thereby contributing to the achievement of the Sustainable Development Goals in accordance with country-specific needs and priorities. To this end, we commend the work of the BRICS Public-Private Partnership and 17 Infrastructure Task Force and endorse its Technical Report on Infrastructure Projects Blended Finance.”

BRICS supports the reduction and removal of greenhouse gases to combat climate change

- “We reiterate that the objectives, principles and provisions of the United Nations Framework Convention on Climate Change (UNFCCC), its Kyoto Protocol and its Paris Agreement, including its principles of equity and common but differentiated responsibilities and respective capabilities (CBDR-RC) in the light of different national circumstances, must be honoured. We condemn unilateral measures introduced under the pretext of climate and environmental concerns and reiterate our commitment to enhancing coordination on these issues. We will strengthen cooperation on a whole range of solutions and technologies that contribute to the reduction and removal of Greenhouse Gases (GHGs). We also note the role of carbon sinks in absorbing GHGs and mitigating climate change, whilst also highlighting the importance of adaptation and stressing the need for the adequate provision of the means of implementation, namely financial resources, technology transfer and capacity building.”
- “We underscore the critical need for active climate adaptation projects, moving beyond research and forecasting to the implementation of practical solutions,

advancing renewable energy, sustainable financing, low-emission technologies, and sustainable development investments, while highlighting the importance of collective action and international cooperation to address the adverse impacts of climate change and ensure inclusive, equitable climate initiatives.”

BRICS supports the creation of carbon markets

- “We recognise the important role of carbon markets as one of the drivers of climate action, and encourage enhancing cooperation and sharing experiences in this field. We oppose unilateral measures introduced under the pretext of climate and environmental concerns and reiterate our commitment to enhancing coordination on these issues. We welcome the adoption of the MoU on the BRICS Carbon Markets Partnership as a platform dedicated to sharing knowledge, experiences and case studies of developing carbon markets and discussing the potential intra-BRICS cooperation on carbon markets to exchange views on potential cooperation under Article 6 of the Paris Agreement among the BRICS countries.”

BRICS supports the World Health Organization and its “central coordinating role” in strengthening “the international pandemic prevention, preparedness and response system”

- “We reiterate our support to the central coordinating role of the World Health Organization in the implementation of multilateral international efforts to protect public health from infectious diseases and epidemics and commit to reform and strengthen the international pandemic prevention, preparedness and response system. We recognise the fundamental role of primary health care as a key foundation for Universal Health Care and health system’s resilience, as well as on prevention and response to health emergencies. We welcome fostering closer ties among BRICS health institutions responsible for sanitary and epidemiological health and well-being, prevention, preparedness and response to epidemic prone communicable diseases and health impact following disasters and encourage further exploring opportunities for knowledge sharing, exchange of expertise and undertaking joint projects in the health sector.”

BRICS supports the development of safe & effective vaccines

- “We support the initiatives of the BRICS R&D Vaccine Center, further development of the BRICS Integrated Early Warning System for preventing mass infectious diseases risks and the operations of the BRICS TB Research Network. We welcome the outcomes of the 79th United Nations General Assembly (UNGA) High Level Meeting on AMR, committing to a clear set of targets and actions, including reducing the estimated 4.95 million human deaths associated with bacterial antimicrobial resistance (AMR) annually by 10% by 2030. We express concern about the growing threat of AMR to all sectors of the economy, in particular healthcare, and note the timeliness of holding the first BRICS Conference on AMR in May 2024.”

BRICS supports “digital transformation” using 5G and other “emerging technologies”

- “Recognising the importance of creating an enabling, inclusive, and secure digital economy and that digital connectivity is an essential prerequisite for digital transformation as well as social and economic growth, we emphasize the need to strengthen cooperation among BRICS countries. We also recognise that emerging technologies such as 5G, satellite systems, terrestrial and non-terrestrial networks, have the potential to catalyze the development of the digital economy. We acknowledge that resilient, safe, inclusive and interoperable digital public infrastructure has the potential to deliver services at scale and increase social and economic opportunities for all.”

And so on and so forth.

Strengthening Multilateralism for Just Global Development and Security vs Building a Just World and a Sustainable Planet

The world is at a crossroads. There are two distinct visions for the future of humankind. You must choose one and then argue with strangers on the internet who are inadequately enthusiastic about your choice, which is perhaps the most meaningful and

consequential choice you will ever make; your choice will literally change the trajectory of human history. So please choose wisely.

Let me be more specific.

The theme of this year's BRICS summit was "Strengthening Multilateralism for Just Global Development and Security". I think we all understand why BRICS chose this theme—because it is very meaningful and profound.

In sharp contrast, the G20 (which includes the USA and many other Unipolar Satanic West nations) will be meeting next month in Rio de Janeiro [to discuss](#) "Building a Just World and a Sustainable Planet".

The contrast could not be more extreme. [Like day and night.](#)

G20 vs BRICS: Who is more sustainable?

EDWARD SLAVSQUAT • SEPTEMBER 15, 2023

On August 23, 2023, Brazil, Russia, India, China, and South Africa released a joint declaration promising that BRICS would pursue Sustainability.

[Read full story →](#)

Let's play a quick game. Which of these two statements is from BRICS' Kazan Declaration?

- Statement A: "We reaffirm our support for the rules-based, open, transparent, fair, predictable, inclusive, equitable, non-discriminatory, consensus-based multilateral trading system with the World Trade Organisation (WTO) at its core, with special and differential treatment (S&DT) for developing countries, including Least Developed Countries and reject the unilateral trade restrictive measures that are inconsistent with WTO rules."
- Statement B: "We express our support for actions aimed at reaffirming that a rules-based, non-discriminatory, fair, open, inclusive, equitable, sustainable and transparent multilateral trading system, with WTO at its core, is indispensable; [we support] policies that enable trade and investment to serve as an engine of growth and prosperity for all ... Fostering a favourable trade and investment environment for all."

Answer: Statement A is from BRICS' Multipolar Sustainable Agenda 2030 Freedom Vision Declaration. Statement B is from the Second G20 Foreign Ministers' Call to Action on Global Governance Reform, published exactly one month ago on September 25, 2024, and [available on the website of the US State Department](#).

And yet these statements, issued by totally different Poles, are oddly similar. What could this possibly mean?

It's a mystery, but pro-Putin conservative Russian media [has a scandalous hypothesis](#):

KAZAN DECLARATION OF BRICS LEADERS: A FAMILIAR AGENDA OF GLOBALISTS UNDER THE SCREEN OF MULTIPOLARITY

source: katyusha.org

After combing through the Kazan Declaration, Katyusha concluded:

It is obvious that the goals of the unification of the countries of this seemingly “alternative to the Atlanticist” bloc are declared to be practically the same as those in the UN declaration “Pact for the Future” recently [adopted at the Future Summit in New York](#). Both the stated goals and the proposed image of the future BRICS association are the same, and everything is even written in the same globalist newspeak.

That is, we have before us a sadly familiar model of globalization, only not for the countries of the Atlantic bloc and their satellites, but for Eurasia and the “global South”—including Africa, and South America. [BRICS] is a kind of subproject from the same curators—in any case, this is precisely what follows from the text of the Kazan Declaration.

Yeah, but ... Zero hedge said that Putin was presented with a [gimmick BRICS peso](#), and that I should be excited about that.

I am excited.

I am.

But I just thought that maybe you would like to know what BRICS said about BRICS when it met in Kazan.

Same dress different doll. That is clear. Both WEF and BRICS are UN 2030 agenda enthusiasts.

Thanks Riley for this

A Hewitt Oct 25

So they want global government under the UN.

Where have I heard that before?
